INFORMATION DISCLOSURE STATEMENT

Sir:

Applicant submits herewith references of which he is aware, which he believes may be material to the examination of this application and in respect of which he may have a duty to disclose in accordance with 37 CFR 1.56. One of the references submitted is an application filed by the present inventor approximately three months prior to filing the present application. It is disclosed because it is directed to performing the same function as the present invention but does so in a way believed entirely different than the present invention. It could be cited against the present application only on asserting a double-patenting rejection under the judicially created doctrine of obviousness-type double patenting.

I hereby certify that this correspondence is being deposited today with the United States Postal Service as first class mail in an envelope addressed to Assistant Commissioner of Patents, Washington, D.C. 20231
